General terms and conditions

1. Conduct of the study programme

1.1. Programme designation and degree

IU International University of Applied Sciences (hereafter: IU) is committed to implementing the distance learning programme as stated on page 1 in line with the valid study and examination regulations. The respective valid study and examination regulations of the underlying source study program also apply to participants and thus also to the periods in which the participant does not yet hold the official student status. The contract is legally binding once the electronic confirmation of acceptance of IU has been sent. Upon completing the study programme successfully, the student will acquire the academic title dependent on the chosen study programme, in line with the valid study and examination regulations. The content of the offered courses, and the respective time-period, correspond to the module handbook, and curriculum, which will be made available to the student in a suitable form. This contract applies for Bachelor and Master programmes. Where necessary, differences in terms of use between Master and Bachelor programmes are mentioned.

The IU points out that in the case of newly introduced degree programmes, there may be a restriction regarding the availability of study content in higher semesters also in the case of newly introduced study programmes, the free choice of the sequence of study contents cannot always be guaranteed. Notwithstanding this, the IU guarantees that the contents of the respective degree programme can be completed within the underlying standard period of study.

1.2. Changes to the course plan

The IU reserves the right to modify study plans if it is in the best interest of the students, and if said modifications are in correspondence with the educational objectives of the study programme.

1.3. Admission to Studies

For Bachelor Programmes:

(1) Enrolment and admission to studies shall be in accordance with the provisions of the Admission Examination Regulations (AZE), and other applicable regulations of the IU, that are in force at the time.

(2) Applicants begin their study programme with the status of participant. Applicants shall only become registered students once they have successfully completed the required courses of the Scholarship programme to an extent of 50 percent of the credit points specified for completion of their chosen Bachelor study programme, as well as have fulfilled all admission requirements and submitted all necessary documentation in accordance with "Regulations for examinations for access to bachelor's and master's degree programs" (Ordnung für Prüfungen zum Zugang zu Bachelor- und Masterstudiengängen (OZBM)). Examination achievements taken as a participant are fully recognized as part of the study programme. Upon successful completion of 50 percent of the required courses in the Scholarship programme, the participant has also proven the required English proficiency to become a registered student.

(3) The provisions of this distance learning contract also apply to participants even if the term "student" is used.

For Master Programmes:

(1) Enrolment and admission to studies shall be in accordance with the provisions of the Admission Examination Regulations (AZE), and other applicable regulations of the IU, that are in force at the time.

(2) Applicants begin their study programme with the status of participant. Applicants shall only become registered students once they have successfully completed the required courses of the Scholarship programme to an extent of 50 percent of the credit points specified for completion of their chosen Masters study programme, as well as admission courses if applicable in accordance with the General Examination Regulations (APO), as well as have fulfilled all admission requirements and submitted all necessary documentation in accordance with "Regulations for examinations for access to bachelor's and master's degree programs" (Ordnung für Prüfungen zum Zugang zu Bachelor- und Masterstudiengängen (OZBM)). Examination achievements taken as a participant are fully recognized as part of the study programme.

(3) The provisions of this distance learning contract also apply to participants even if the term "student" is used.

1.4. Minimum Number of Students

The IU reserves the right to withdraw from the distance learning contract by declaration in text form no later than four weeks before the start of the study programme, or to postpone the start of the study programme, if the minimum number of 12 students for the study programme selected on the cover sheet has not been reached by this time. Any advance payments already made will be refunded in full.

In the event of a postponement of the start of studies, the student has a right of withdrawal, which (s)he can exercise within four weeks after a

declaration by IU to this effect, also using the text form. The declaration must be addressed to service-online@iu.org.

1.5. Status of the Student

Participants will receive the official registered student status after the official start of the selected study program. This is once they have successfully completed the required courses of the Scholarship programme to an extent of 50 percent of the credit points specified for completion of their chosen Bachelor study programme, as well as have fulfilled all admission requirements and submitted all necessary documentation in accordance with "Regulations for examinations for access to bachelor's and master's degree programs" (Ordnung für Prüfungen zum Zugang zu Bachelor- und Masterstudiengängen (OZBM)) including the correct documents.

If required, Master applicants must complete the admission courses successfully, as is stated in section 1.3 according to the Regulations for examinations for access to bachelor's and master's degree programs (Ordnung für Prüfungen zum Zugang zu Bachelor- und Masterstudiengängen (OZBM)) before starting the Scholarship Programme. Until these requirements are completely fulfilled the student will only be registered as a participant and not as an official student.

2. Contract Duration

2.1. Contract Duration

The contract has a defined duration, as stated on page 1. The contract starts on the date stated on page 1 and ends after the duration stated on page 1, without any notice of termination.

A student who is unable to provide the documents required to prove his/her university entrance qualification, or the documents required for admission to the selected degree programme in accordance with the Admission Examination Regulations (AZE) in force at the time, in question in the required form prior to the commencement of the contract, the participant is provisionally granted access to the contents of the programme at a charge. The contract period specified on page 1 will not be changed by the subsequent submission of the documents.

The participant is obliged to submit the documents to the IU by postal mail until the successful completion of the required courses of the scholarship programme to an extent of 50 percent of the credit points specified for completion of their chosen study programme or until the end of the extension/pause if the participant has requested an extension/pause of his/her study programme according to section 2.5.

If this is not done in due time or if the participant does not meet the required admission requirements for studies in accordance with the provisions of the Admission Examination Regulations (AZE) and other applicable regulations of the IU that are in force at the time by then, the participant cannot be enrolled in the chosen study programme, he/she will not receive student status and the study contract ends at the end of the scholarship programme or if applicable at the end of the extension/pause according to section 2.5. without any notice of termination being required.

2.2. Contract Extension for Students Lacking Performance Records

If the student does not acquire all necessary performance records within the contract duration agreed upon on page 1, the student may request in text form that the contract be extended, subject to a charge. For the period of the fee-based extension of the contract, course fees must be paid in return for the continuation of use of the equipment and offers from the IU. Details are regulated by a separate agreement to be finalized for the contract extension. IU reserves the right to adjust the tuition fees to the current level (to increase or to decrease) in case of an extension following the standard period of study. In the event of the fee-based extension of the duration, the tuition fees that were valid at the time of commencement of studies are not automatically applied.

The discount related to the tuition fees due to participation in the Scholarship programme does not apply to any contract extensions beyond the standard period of study regardless of the reason for which the contract extension occurs.

If the student does not submit an application in time, the study contract will end without any notice of termination and the student will be exmatriculated if the official student status has been acquired by that time.

The IU may reject the application for a contract extension in justified cases.

2.3. Regular Termination of Contract

The contract may be terminated with one month's notice to the end of the full month with regard to the start of the study. Notice of termination must be given in text form (letter, fax, learning platform or e-mail). The right of ordinary termination by IU is expressly excluded.

2.4. Immediate Termination of Contract

The right to an immediate termination of the contract for a reasonable cause remains unaffected. Important, justified causes for the student to qualify for immediate termination particularly include proven, unexpected unemployment, life-threatening illnesses, as well as the death of a student. A change in the study programme, relocation, failed exams, financial or family reasons are not justified causes for immediate termination.

If admission to the study programme expires, is revoked, or cancelled after the conclusion of the contract, the student can terminate without observing the two weeks' notice period.

Justified causes for the IU to qualify for immediate termination particularly include outstanding tuition fees that amount to the equivalent of one quarterly rate, breaches against the IU's examination rules, a student's criminal actions at the expense of the IU, or if it is foreseeable, that a necessary (re)accreditation or admission of the study programme is not granted.

The IU is allowed to terminate the contract without any time of notice if the student is not able to provide the university all needed documents that are necessary for the final inscription by the end of six months after the start of the contract.

2.5. Leave of Absence

In the case of illness, or for other proven personal reasons, students with an official student status may apply for a leave of absence for a period of six months. In principle, the leave of absence can take place at the beginning of the second semester at the earliest; meaning six months after the programme has commenced.

During the scholarship programme, the participant may apply for and take a leave of absence for a maximum total period of one year, whether or not the leave of absence is taken consecutively. A leave of absence beyond this period during the scholarship programme is not possible. In principle, the leave of absence can take place at the earliest six months after the scholarship programme has commenced.

The bilateral rights and obligations of this contract lapse in this case for the duration of the leave of absence. The obligation to pay the total tuition fees in accordance to section 3.3. remains after leave of absence to the student has been granted. If a six months' leave of absence is granted to the student, the monthly rates stated on page 1 of this contract must be paid beyond the agreed duration of the contract until the total amount of the monthly fees stated on page 1 are paid in full.

The application for a leave of absence of six months submitted with two weeks' notice before the intended start of the leave of absence based on the month with regard to the start of the study and must be in text form. The study contract cannot be terminated during a granted leave of absence. When applying for a leave of absence, the "Information for a leave of absence" and/or the "Information for a leave of absence due to maternity leave or parental leave" becomes an integral part of the distance learning contract.

2.6. Failing Essential Examinations

In the event that a student/participant definitely fails an exam, which is necessary to pass in order to successfully complete the study programme, the teaching contract ends without having to be terminated upon final failure.

In this case, the student will be exmatriculated if he/she has acquired the official student status.

2.7. Failing to complete 50 percent of credit points as a participant with scholarship

If a participant fails to complete the required courses of the scholarship programme to an extent of 50 percent of credit points specified for completion of the chosen study programme she/he will receive a certificate including subjects and grades. The same holds true if a participant decides not to continue in his/her chosen programme after successfully completion of the scholarship programme, that means after successfully completion of 50 percent of credit points specified for completion of their chosen programme. ECTS cannot be granted during the Scholarship programme. Moreover, ECTS cannot be granted if enrollment to the chosen programme was not possible due to lacking of fulfillment of requirements necessary for admission in accordance with the Admission Examination Regulations (AZE) and other applicable regulations of the IU in force at that time or if the student has not provided the documents required to prove his/her university entrance qualification or the documents required for admission to the selected degree programme in accordance with the Admission Examination Regulations (AZE) and other applicable regulations of the IU in force at the time in the required form. ECTS can only be granted after completion of the Scholarship programme and if the admission requirements are met and proven in accordance with the valid Admission Examination Regulations (AZE) and other applicable regulations of the IU.

2.8. Recognition of prior learning and qualifications

Upon receiving student status, prior learning and qualifications can be recognized within the framework of the study and examination

regulations. The sole consequence of a recognition of prior learning and qualifications is that recognized modules do not need to be taken again by the student. All other parameters of the contract remain unchanged. The student will be informed about recognition of prior knowledge and qualifications within the framework of the study and examination regulations by means of a notice of recognition.

3. Tuition fees

3.1. Cost models per model of study

The total costs of the chosen programme are dependent on the chosen model of study. In the case of a time model change during the study programme, the tuition fees valid for the time model change at the time of application are taken as the basis.

3.2. Tuition Fees

The total costs for the chosen study programme are stated on page 1 of the study contract.

3.3. Payment Method and Deadline

The tuition fees are payable monthly in advance.

The fee shall be payable exclusively in Euro currency, regardless of whether or not the student's place of residence is located within the Euro currency area. The use of online payment systems shall be necessary. Debit/credit card payments, payments by checks, bank draft or transfers will only be accepted via online payment systems. IU will inform the student about the available online payment systems. All and any charges due to fee payments abroad shall be exclusively paid by the student. The payment for the first period must have been received by IU before the start of the study programme. Otherwise, the student will not be allowed to start his/her studies.

The graduation fee must be transferred by the student until the date of the final exam. The graduation fee must be paid within fourteen (14) days after registering for the final examination (colloquium). If the student wants to take the final examination (colloquium) before the end of the contract duration decided upon in Section 2.1., the outstanding tuition fees for the remainder of the course, until the end, must be paid in full before the date of the colloquium. Changes in the amount of tuition fees may result in case of discount campaigns in effect at the time of registration.

4. Duties of the student

4.1. Paying the Course Fees

If the tuition fees cannot be paid fully and on time by the student, the IU is entitled to charge any applicable fees to the student's invoice and claim them. Regardless of this, if the student is in default with fee payment, the IU is entitled to terminate the contract due to extraordinary reasons. IU is allowed to lock the access to all the systems in regard to the learning platform if the student's payment is delayed by a period of one month.

4.2. Examinations

If the student has to repeat an examination due to attempted cheating or the submission of something which has been plagiarized, an additional payment of 300.00 Euro incurs for every examination that has to be reset.

Within 24 months of allocating the corresponding courses, the student must take all the relevant examinations listed in the module handbook, even if just as a first attempt. If the student does not take the examinations or even attempt them for the first time within the 24 months after the allocation of the courses, all assessments taken up until then are void and have to be taken again within 12 months. Furthermore, the course will have to be taken again, which is subject to charges.

4.3. Consent to submit academic achievements via Online-tools

The student is aware that in order to ensure the smooth running of online examinations, a knowledge of English is necessary to a small extent, as communication with the proctors (examination invigilators) is only possible in English.

In some cases, the submission of academic achievements within certain modules or courses has to be undertaken via the usage of online tools, which need to process data also outside of the EU. The details of the data processing are explained in separate information sheets.

4.4. Verification by plagiarism software

In order to enable IU to verify his/her examination by plagiarism software, the student is obliged to provide an electronic copy of his/her examination. The actual document must be submitted as an electronic copy and in a readable format (e.g. DOC, DOCX, PDF, RTF) and must not contain any personal details (without a cover page, personal statements, dedications, signature, etc.).

The student acknowledges that the IU and third parties, which are specially commissioned by IU, have the right to use his/her work for this purpose.

4.5. Copyright protection

All study content and media are protected by copyright. Any use for purposes other than contractually permitted is prohibited and requires the prior written consent of the copyright owner. This applies in particular to making these available via the internet, duplication and disclosure to third parties. Saving and printing the study content and media for personal purposes is permitted.

4.6. Other duties

The student agrees to be bound by the valid General Examination Regulations as well as the IU's study and examination regulations of the named study programme (page 1), the IU library user code (LIS Rules and Regulations) and the guidelines for online-examinations and online-presentations.

4.7. Additional costs for selected bachelor programmes

For the implementation of some degree programmes, the acquisition of certain technical equipment or other materials by the student is necessary. The purchase of this equipment and materials is not included in the tuition fees. The respective additional costs can be viewed on the IU website.

5. Virtual Campus and Digital Learning Materials

The central learning processes and the organization of the study programme will be handled internet-based via the IU's virtual campus. The student is obliged to inform himself/herself independently whether the online-tools and other technology used by IU, which are necessary for the implementation of the study contract, are available to him/her in their prospective country. An overview of the necessary online-tools and the required technical study equipment (software and hardware) can be found here (<https://www.iu.org/start-studying/>). Providing necessary technical equipment is not included in the course fees. The student is solely responsible for providing technical study equipment (hard- and software) of his choice which needs to be compatible with IU's requirements.

IU's virtual campus is password protected. The campus' entry details will be given to the student at the beginning of his/her study programme and (s)he must assure that (s)he does not give these details to others. The student has to make sure, that unauthorized third parties cannot access the virtual campus or the programme's learning materials.

6. Right of revocation

The student has the right to revoke this contract within one month of the start of this contract and the date the student gains access to the learning platform, without giving reasons.

The revocation period is one month from the date on which the student receives access to the distance learning materials. To exercise the right of revocation, the student must inform IU in a clear declaration (e.g. a letter sent by post or email) of his/her decision to revoke this contract. The sample revocation form (Link: https://res.cloudinary.com/iubh/image/upload/v1629367747/International/docs/IU_Sample_Contract_Revocation_Form_EM_wgrfok.pdf), which is provided digitalized within the campus management system, can be used for this, but is not mandatory. The student can ensure the revocation period by sending the notification of his/her choice to exercise his/her right of revocation before the revocation period expires.

IU grants the student a free trial month within the distance learning if the student decides not to continue his/her studies within the revocation period. If the student continues his/her studies and does not use his/her right of revocation, this month is taken into account for the regular study duration and charges apply.

7. Data privacy

The details for the processing of personal data and the rights of the student related to this, are explained in the information notice for data privacy, which can be obtained by the student via the website of IU distance learning. In order to carry out the distance learning contract, IU uses the software of different providers, which causes the processing of personal data also outside the European Union. The student declares consent that the IU may store, collect and use the student's data which becomes known during the application process and during the contract period. The student also agrees that his/her data may be forwarded to the authorities in cases regulated by law.

8. Liability of the IU

The IU is liable for damages resulting from a breach of obligations due to intentional or gross negligence on the part of its legal representatives or auxiliary persons. The IU is also liable for damages resulting from harm to life, body or health arising out of a breach of obligations due to the intentional or negligent breach of obligations on the part of the university's legal representatives or auxiliary persons.

Beyond this, the liability for damages arising out of a breach of obligations due to negligence or slight negligence or due to an act committed with negligence or slight negligence on the part of its legal representatives or auxiliary persons is excluded, except for damages arising out of a breach of fundamental obligations whose compliance is necessary to achieve the goals of the contract or which arise out of the justified reliance upon the relationship set forth herein. With respect to these exceptions, the liability is limited to the compensation for predictable damages.

9. Jurisdiction and final provision

For all claims referring to or in connection to this contract German Law is applicable. If the student changes his/her legal domicile or habitual residence to a location outside of Germany after the conclusion of the contract or his domicile or habitual residence is unknown at the time of a filing of a lawsuit, in accordance with § 38 (3) ZPO, it is agreed that any dispute arising out of this contract or in connection with this contract, the court presiding over the headquarters of IU (Erfurt District Court, Regional Court Erfurt) will have jurisdiction.

For persons who do not have a place of jurisdiction in the Federal Republic of Germany at the time of the conclusion of the contract, or during the contract period, the jurisdiction of the court presiding of the headquarters of IU (Erfurt District Court, Erfurt Regional Court) is also agreed to by both parties, in accordance with §38 (2) ZPO. For periods in which the person concerned has a place of residence or a habitual residence within the Federal Republic of Germany, for example during an in-person semester in Germany, this jurisdiction agreement has no effect.

IU will not participate in a dispute settlement procedure within the frame of the Consumer Dispute Settlement Act (VSBG).

In accordance with legal demands, IU has provided a private-sector guarantee, which guarantees all students will be able to complete of their studies regardless of the economic situation of the executing institution. For legal reasons, we would like to point out that the Free State of Thuringia does not provide any additional security.

There are no subsidiary agreements to this contract. Modifications or amendments to this contract must be made in written form. Modifications or amendments to this provision must also be made in writing. Should one or more provisions of this contract be or become invalid, the remaining provisions remain unaffected. In the case of a regulatory gap within this contract, the contracting parties shall find a resolution that corresponds to the purpose and economic intent of the remaining contract.

Cancellation policy

Right of revocation

You have the right to revoke this contract within one month without reason. The withdrawal period is one month from the date on which you or a third party appointed by you who is not a carrier took or has received access to the learning material. To exercise your right of revocation, you must inform us, IU Internationale Hochschule GmbH, of your decision to revoke this contract by means of a clear declaration (e.g. a letter sent by post or an email). You can use the model withdrawal form for this purpose, which is not mandatory (Link: https://res.cloudinary.com/iubh/image/upload/v1629367747/International/pdfs-docs/IU_Sample_Contract_Revocation_Form_EM_wgrfok.pdf). In order to comply with the revocation period, it is sufficient that you send the notice of the exercise of the revocation right before the expiry of the revocation period.

The revocation is to be addressed to:

IU Internationale Hochschule GmbH
Albert-Proeller-Str. 15-19
86675 Buchdorf
Germany
service-online@iu.org

Non-payment and Revocation consequences

If you cancel this agreement, we will refund all payments we have received from you, including delivery costs (except for the additional costs resulting from your choosing a delivery method other than the cheapest standard delivery offered by us), immediately and at the latest within fourteen (14) days from the day we receive notice of your cancellation of this agreement. We will use the same means of payment for this refund as you used for the original transaction, unless otherwise expressly agreed with you; in no event will you be charged any fees for this refund. IU Internationale Hochschule GmbH grants the student a free trial month within the distance learning, if the student decides not to continue his/her studies within the revocation period. If the student continues his/her studies and does not use his/her right of revocation, this month is taken into account for the regular study duration and charges apply.

Declaration

I hereby register for the distance learning programme marked overleaf, taking into consideration the contractual terms and conditions, and assure the completeness and correctness of my stated data.

With the acceptance of my offer by the IU Internationale Hochschule GmbH, the contract between me and the IU Internationale Hochschule GmbH comes into effect.

With my signature, I confirm that I have read and understood the General Terms and Conditions and the information letter on data protection „[General information on the processing of personal data in connection with your studies at the IU](#)“ and that I have been informed about the right of revocation.

Checklist

This contract does not guarantee enrolment – in order to be successfully enrolled, you must submit your application documents. Below you will find a check-list of the documents you must provide in order to start your study programme.

First Step: sign your study contract

Study contract: sign and upload on the website or use the link that was sent to you via e-mail

Second Step: upload your documents

The following documents are required – before the start of your studies – **by upload or e-mail**. This is so we can determine your eligibility, and successfully admit you to your desired programme. If your documents are in a language other than **English or German**, we require an official translation by a sworn translator. IU offers a trusted partner to translate your documents – all digitally. Let us know if you'd like us to refer you to our translation partner.

Bachelor's degree certificate

Note: a degree certificate should indicate the overall grade (min. C, 'satisfactory') and credits achieved.

Transcript of records from your diploma/certificate

Note: a transcript of records lists all the courses/subjects taken and grades achieved

Proof of English language proficiency (not older than 5 years)

Depending on your personal situation, you might be exempt from this requirement.

Final Step: after the start of your studies

Once you start studying, the following documents are required - **by upload or e-mail**, and must be submitted no later than 3 months after your study start date:

Proof of work experience

Note: you can demonstrate 1 year of professional work experience by sending us a job reference/employment letter or payslips and work contract. Your work experience must be from a period of time **after** you've completed your undergraduate studies, and must be provided **before** completing 50% of ECTS (credit points) of the Master's program you are applying to. Depending on your previous education, entry options are applicable for the 60-ECTS Master's degree, please talk to your study advisor to know more.
